

Outer Chilbo in Mt. Chilbo

The area, except those of Inner Chilbo and Sea Chilbo, belongs to Outer Chilbo.

Different from the graceful and dignified appearance of Inner Chilbo, Outer Chilbo presents the beauty of mountain and valley for there are sky-kissing majestic and mysteriously-shaped peaks and oddly-shaped rocks and cliffs, crystal-clear water flowing along the valleys.

According to the regional peculiarities and sightseeing routes, it is divided into the Jangsu Peak, Manmulsang, Rojok Peak, Tok Valley, Kangson Gate, Taphok Valley and Hwangjin districts.
