

Sahwang Peak in Mt. Kuwol

It is the highest peak in Mt Kuwol, one of the famous mountains in Korea.

As the highest mountain in South Hwanghae Province, it covers an area of 110km².

On the summit of this peak, you can enjoy a view of Pyongyang in the north, the landscape of the countryside in the east, and the West Sea of Korea and sand beach of Monggumpho in the west and the south.

Sunrise and sunset seen on this peak are also fantastic.

There is the Kuwolsan Fortress in the Sansong Valley beneath Sahwang Peak, which was built in the period of Koguryo to fight against the foreign aggressors.
