

An Immortal Guideline Given on a Significant Day

The Central Cadres Training School of the Workers' Party of Korea was inaugurated as the model of Juche-oriented architecture and education sectors.

It reminds us of the valuable teaching the respected Comrade **Kim Jong Un** gave for developing the WPK into a party for the people deeply rooted among the masses during his visit to the school on October 17, 2022.

In his commemorative lecture given at the school he said that the work with the masses is the one for consolidating the Party's mass foundation and strengthening the single-minded unity and at the same time a vital issue related to the existence of the Party.

He stressed the need for Party organizations and officials to always lend an ear to the people's opinions, respond sensitively to and properly coordinate their sentiments, the need to direct efforts to working with young people and children, an important guarantee for building the Party in a long-term way, and others.

And he went on: As I have said before, our Party was born to defend the interests of the working masses and has been working to provide them with a happy life since its founding, and this is why they call our Party their mother and follow it.

His historic lecture, given at the "pedigree farm" for training the backbone cadres of our Party on the significant day of marking the founding of the Down-with-Imperialism Union (DIU), the root of the Juche revolution, was an immortal guideline for steadily strengthening and developing the WPK, which has recorded the longest history as the ruling party amid the absolute support and trust of the people, into a promising party which forms an integral whole with them.
