

Single-minded Unity-- the Strongest Weapon

The respected Comrade **Kim Jong Un**, at the Fifth Plenary Meeting of the Seventh Central Committee of the Workers' Party of Korea held in December 2019, said that single-minded unity and harmonious whole between the Party and the people is the ultimate weapon in the world.

The ultimate weapon in the world!

Single-minded unity, an ever-victorious weapon which can be found nowhere in the world, is the true image of Korean-style socialism and the foundation for the existence of our Party and our state.

The respected Comrade **Kim Jong Un** is opening up a broad avenue to victory and prosperity by strengthening and developing the Party and the revolutionary ranks into an invincible integral whole which breathes and thinks with one ideology and purpose and leading them to carry out any gigantic tasks by dint of single-minded unity.

Thanks to his leadership, our single-minded unity has been further strengthened into the ultimate weapon of the revolution and the source of boundless might for accelerating a new victory.

Even in the face of obstructive schemes of the hostile forces and severe circumstances, our Republic has been developed into a dignified fortress of independence, just because it has the ultimate weapon of single-minded unity.

The single-minded unity of our people who are closely rallied around their leader is the one and only ultimate weapon which other countries can neither possess nor imitate.

Our country will exalt forever its image as a powerful nation dignified with unity under the leadership of the respected Comrade **Kim Jong Un**.
